

Playground Committee – Judith Simpson

The Playground is very well used, especially during the school holidays. Older children occasionally have to be reminded that it is for the younger children, but we are aware that there is no area specific for the older children in the village.

This year, Carol Rapley and I have been cutting the grass, and we would really appreciate some other volunteers to do this as well. We are also still looking for somewhere to house the lawnmower.

We are looking forward to being able to supply further equipment thanks to some S106 money available. A notice has been put out to see if there are any specific pieces of equipment that locals would like to see in place, but there have been no replies yet. It is the intention to display options for the playground for local consultation at the Village Show.

- Since the meeting, a villager has cut the grass in the playground and says he wants to be involved and has some ideas for other equipment. He will be meeting with Judith shortly.
