Subject: RE: Street Lighting in Axmouth

Good morning,

Apologies for not replying in time for the meeting but I have only returned to work this morning after being on leave.

I did receive a request for similar information from Cllr Ian Hall & replied to him with this the required info on 14th May so I'm not sure if Cllr Hall has passed this on? If not I have attached the reply & info I sent to Cllr Hall.

However, his queries did not include alteration of the operating hours of the lighting. By way of background, we have received requests from multiple Parishes wanting to 'do their bit' by reducing lighting in their areas & I will now add Axmouth's desire to also look at the possibility of altering the hours of operation for the lighting in the village. We are not currently in a position where we can alter timings away from our current policy as the current operating hours were agreed and signed off by all relevant stakeholders. I can however advise that we are reviewing this policy so this position may change in the future. The review will need to include legal input, Risk Assessments, biodiversity, stakeholder engagement, equality impact assessment, feedback from trial sites and benchmarking against other authorities amongst other considerations. This would be in parallel to the installation of the required equipment to facilitate the change.

Regards

Andy Ware
